Introduction

Handelsbanken's implementation guidelines for positional format describe exactly which information is to be included in the customer internal interest information on file in Handelsbanken's positional format. The description is specific for Handelsbanken's services and procedures and must be used only when working with Handelsbanken.

Handelsbanken's positional format has been adapted to Handelsbanken's services and procedures.

History

New releases of the Implementation Guides are published on a regular basis, based on new versions of the underlying standards or to provide clarification or changes. At Handelsbanken, changes to version numbers are made according to the following guidelines. The original version is 1.0.0.

- The last digit is changed when the format descriptions are changed, for example text clarifications and examples.
- The second digit is changed if minor changes are made to the format such as new countries or changes in the payment type.
- The first digit is changed (thus becoming a completely new version) if the format changes mean that the customer will have to make adaptations in order to continue using the service. In this case, all customers affected are informed of the new version and what the changes involve.

Version	Date	Description
1.0.1	28-02-2015	Clarification of examples and comments

Information about the service

This document describes the contents of the interest information on file, available for Handelsbanken's global CashPool service: Notional Group Account. The customer internal interest information is described in the document. See a separate document for description of interest information for interest (between bank and customer) in Notional Group Account.

If information is subscribed for both interest and customer internal interest, the information is provided in a single file. The file is available every month and refers to a full calendar month. The file is produced on the first calendar day of the month.

Implementation guidelines

This section contains a description of Handelsbanken's customer internal interest information on file for Cash Pool – Notional Group Account in positional format.

ABBREVIATIONS ETC.: FIELD STATUS

M = Mandatory

O = Optional

N = Not used

ABBREVIATIONS ETC.: DATA TYPES

Num(\pm ,n,d) – The field is numerical with n integers and d decimals. If the format mask includes a plus-minus sign (\pm) the value has a leading plus or minus. If the value is negative, the number is preceded by a minus sign. E g -10050. If the value is positive, the number is preceded by a plus sign. E g +10050.

X(n) – Alphanumeric field where n states the number of characters.

Date(n) – Date field where n states the number of characters. The format used is YYYY-MM-DD.

File format rules:

- [1] The file is position based
- [2] Amount fields: The positions holding the decimals in a value are defaulted and no decimal signs are used. E g: If the type is Num(4,2) then the last two digits in the value are decimals.
- [3] Numeric values are right aligned and padded with zeros.
- [4] Alphanumeric fields are left aligned and padded with spaces
- [5] Records are terminated with new line
